

NTH CYCLE

Financial Analyst

Who we are.

Demand for critical minerals to power the energy transition is growing exponentially. Yet, we know mining deeper and broader, and building landfills higher and wider, works against our fight to save the planet. At Nth Cycle, we see the path forward. We believe all the critical minerals needed for the energy transition are already in circulation today. We just didn't have a clean, profitable way of retrieving them, until now.

Nth Cycle is a metal processing technology company. Our electro-extraction technology helps battery recyclers and miners capture more critical minerals—for use in lithium-ion battery manufacturing, among other things—while dramatically reducing costs and emissions. We are the heart of metals processing; we are the crucial step that profitably separates critical minerals from other elements, transforming them into production-grade feedstocks for the energy transition.

We recently closed a \$12.5M Series A funding, won second place at TechCrunch Disrupt, and just moved into a new 1,200 sqft facility outside Boston.

Our Culture.

You won't find another team like ours. We believe in open, honest communication, and enjoying our work while changing the world. We work quickly but with intention—we've scaled our technology in size 100x in the past year. We're mission-oriented and think big—we're focused on reducing *gigatons* CO2 emissions from the atmosphere by 2050. And we value the perspectives and opinions of our colleagues while pushing each other to excel.

We're a dynamic team looking for a new team member who's also passionate about addressing climate change and advancing the clean energy industry. Consistent with our commitment to diversity & inclusion, we value colleagues with the ability to work on diverse teams and with a diverse range of people.

If this is you, keep reading.

Position description.

Nth Cycle is looking for a Financial Analyst to contribute to its development efforts. Candidate will support the development and finance teams in sourcing, analyzing, and executing the roll out of our innovative electro-extraction solution in critical industry verticals. As Nth Cycle continues its rapid development, the company is looking for a high energy, self-starter candidate to support the commercial delivery of Nth Cycle's best in class solution redefining the way we refine critical minerals for the energy transition.

NTH CYCLE

At Nth Cycle, our culture shapes who we are and how we operate. We need someone who is just as passionate about the culture as they are about their core responsibilities.

Key responsibilities and accountabilities:

- Financial modeling – building new financial models for different Nth Cycle project opportunities and customers in the sector (recycling and mining industry); building and maintaining enterprise model reflecting the business plan of the company; reviewing and adapting models provided by third parties
- Due diligence – leveraging industry knowledge to assess merits and risks of prospects in the context of the current market environment
- Research – conducting company and industry research to keep the team abreast of market and industry news, technology, regulatory developments, and trends. Analyze potential customer operations, needs and market factors to understand the value proposition of Nth Cycles Solution
- Execution Support – assisting team in developing internal and external memos, presentations, reports, proposals to customers and completion of documentation related to projects and acquisitions
- Interaction with Counterparties – support BD lead in working with shareholders, counterparties, regulatory entities in the development of financial projections for projects and acquisitions domestically and internationally
- Interaction with Nth Cycle Team – work with Nth Cycle’s operations, technology, and finance groups to develop solutions that answer the customer’s business needs
- Project Pipeline – support BD lead in maintaining an active customer/ deal pipeline to track, analyze and report on customers and project opportunities
- Consistently embody Nth Cycle’s company values
- Act with the employee experience top of mind, continuously seeking feedback, inefficiencies, and maintaining business relationships based on trust and respect

This role reports to the VP of Business Development and Chief Financial Officer. This role requires to be in person but can provide some remote work flexibility.

NTH CYCLE

Qualifications and experience:

Qualified candidates will possess a strong combination of the following:

- 2+ years of experience within an investment or commercial bank, consulting firm, private equity fund or corporate/ project finance with a developer/operator
- Strong project-level modeling skills and experience, both for project valuation and financing
- Due diligence experience (mining/ metal recycling industry knowledge a plus)
- Strong verbal and written communication skills
- Ability to travel
- Strong interpersonal skills coupled with high level of professional maturity and solid work ethic
- Ability to thrive in a fast-paced unstructured environment

Closing Statement

Consistent with our commitment to diversity & inclusion, we value people with the ability to work on diverse teams and with a diverse range of people. We especially encourage members of traditionally underrepresented communities to apply, including women, people of color, LGBTQ people, veterans, and people with disabilities.

We know the right candidate might not check every box in this job description. You could also have important skills we haven't thought of. If you think you're a great candidate for this role, apply and tell us why. To apply, send us a resume and a few sentences about why you are interested in this position and what you bring to the table. We're looking forward to hearing from you.
